

# Healthcare Services

# Healthcare Facilities Depend on AccuWeather

Health care, transportation, manufacturing, utility, educational, and governmental clients throughout the U.S., Canada and Mexico turn to AccuWeather for our specialized weather-risk management services and state-of-the-art weather forecasting.

You can take advantage of weather opportunities and minimize weather-related risks when you rely on our weather information. You will benefit from our unique blend of meteorological science and technology and our highly trained, motivated, and enthusiastic people.

## AccuWeather's solutions empower you as a healthcare company to:

### / Protect Lives

Customized, advanced warnings of severe weather provide the critical time necessary to enact emergency plans to safely transport patients and to shelter everyone in your facility.

### / Effectively Manage Operations

Create staff schedules to account for an increase in patient volume during severe weather.

### / Prepare Your Facility and Equipment

Enact procedures and protocols to protect your facility and equipment before severe weather hits.

### / Schedule Daily Operations

Plan or reschedule surgeries and treatments in advance with enough lead time for ample notification to patients and staff.

AccuWeather provides the products and services that healthcare facilities rely on. Our customized consultation services (24x7x365) are also available to address your specific needs. **Contact us today at: 814.235.8600 or [salesmail@accuweather.com](mailto:salesmail@accuweather.com).
